

ACTA STEREOLOGICA

CONTENTS	Page
<i>SPECIAL ISSUE ON NUMERICAL DENSITY (Foreword)</i>	141
A survey on N_V stereology for convex particles in metallography, <i>J. Bodziony, K. Wiencek, J. Ryś</i>	143
N_V - stereology for parallel sections, <i>K. Wiencek</i>	157
Estimation of the particle density N_V by coupled plane sections, <i>J. Ryś, K. Wiencek</i>	175
Multivariate unfolding problems, <i>V. Beneš, M. Slámová</i>	189
A brief introduction to particle number estimation, <i>K.-A. Dorph-Petersen, J. R. Nyengaard, H. J. G. Gundersen</i>	201
Modern methods for estimation of particle density, <i>K. Roźniatowski,</i> <i>K. Kurzydłowski</i>	215
Determination of the oxide particle density in ods alloys by means of transmission electron microscopy, <i>A. Czyrska-Filemonowicz,</i> <i>B. Dubiel, K. Wiencek</i>	225
<i>MISCELLANEOUS</i>	
3D Voronoi tessellations of cluster fields, <i>I. Saxl, P. Ponížil</i>	237
3D Voronoi tessellations generated by Poisson and lattice cluster fields, <i>I. Saxl, P. Ponížil</i>	247
2D and 3D topological analysis of modeled porous media, <i>E. Moreau, S. Sammartino, G. Touchard</i>	253
3D reconstruction of surfaces captured by confocal microscopy, <i>J. Janaček, L. Kubínová</i>	259
A new distance method for the quantitative analysis of point patterns in space, <i>Yang Z., Liu G., N. G. Wreford</i>	265
An attempt at an algebraic theory of crystal structure. Part 3., <i>D. A. Aboav</i>	273
Rapid stereological method for assessing the area fraction (A_A) of prostatic carcinoma in TURP specimens, <i>A. A.-M. Zaitoun</i>	283
